1. The Committee met on 03-12-2022 and after deliberations resolved the following.
2. During the discussions it is found that no grievances were filed by female faculty and staff with regard to sexual harassment.
3. The Committee also discussed if any students had issue with male gender on the campus and found no complaint is received.
4. However, few students have complained that they are being teased by some miscreants on their way to college from Nampally bus stand / Metro railway station. On their oral complaint immediate action was initiated and a letter was addressed to the Deputy Commissioner of Police (She Teams) to arrange picketing both in the morning and evening. In response to our correspondence, the Dy. Commissioner of police deputed the Sub-inspector of police and the problem of teasing was solved immediately. Further, the police authorities assured to continue vigilance by deploying police in civil dress

Department of Computer Engineering

Vision: Empowering girl students with comprehensive and pragmatic knowledge in computer engineering for success in life.

Mission:

1. To impart quality education for girl students to learn and practice various hardware and software and to facilitate networking platforms which are the state of the art in industry. platforms prevalent in industry.
2. To achieve self-sustainability and overall development through entrepreneurship and technology transfer through research and development activities.
3. To groom students with good an optimistic attitude, excellent team work and great personality skills.

Program Educational Objectives: (PEO's)

PEO1: Our graduates shall have enhanced skills and comprehensive knowledge in software and hardware, networking technologies for professional excellence, towards successful self-employment, advanced learning, entrepreneurship and research.

PEO2: Our graduates shall have life-long learning attitude, innovation and creativity to master the state of the art technologies with inclination towards research, devising pragmatic solutions for realistic and social issues in the society.

PEO3: Our graduates shall have optimistic attitude and vibrant personality skills, high ethical values, individuality, excellent teamwork, leadership and entrepreneurial skills towards computer professionalism and ethical practices within the organization and the society.

Program Specific Outcomes: (PSO's)

PSO1: Problem-Solving Skills: The ability to apply industry standard practices and pragmatic strategies in software and hardware and network project development using open-ended programming environments to deliver a quality product within time and budget for the benefit of students.

PSO2: Design, Implement, Test and Evaluate a computer system, software, hardware, networks, component or innovative algorithm to meet desired needs and to solve a computational problem within time and space.

PROGRAM OUTCOMES

PO1: Engineering knowledge: Apply knowledge of mathematics, science, engineering fundamentals and an engineering specialization to the conceptualization of engineering models.

PO2: Problem Analysis: Identify, formulate, research literature and solve complex engineering problems reaching substantiated conclusions using first principles of mathematics and engineering sciences.

PO3: Design/development of solutions: Design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.

PO4: Conduct investigations of complex problems: Conduct investigations of complex problems including design of experiments, analysis and interpretation of data, and synthesis of information to provide valid conclusions.

PO5: Modern Tool Usage: Create, select and apply appropriate techniques, resources, and modern engineering tools, including prediction and modeling, to complex engineering activities, with an understanding of the limitations.

PO6: The engineer and society: Function effectively as an individual, and as a member or leader in diverse teams and in multi-disciplinary settings.

PO7: Environment & sustainability: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO8: Ethics: Demonstrate understanding of the societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to engineering practice.

PO9: Individual and Team work: Understand and commit to professional ethics and responsibilities and norms of engineering practice.

PO10: Communication: Understand the impact of engineering solutions in a societal context and demonstrate knowledge of and need for sustainable development.

PO11: Project Management and Finance: Demonstrate a knowledge and understanding of management and business practices, such as risk and change management, and understand their limitations.

PO12: Lifelong Learning: Recognize the need for, and have the ability to engage in independent and life-long learning
