SNo	Description	Page No
CSE Collaborative quality initiatives AY 2022-23		
1.	A CSR Initiative sponsored by HONEYWELL – Implemented by ICT ACADEMY 13th October 2022 to 31st October 2022	2-3
2.	Salesforce Industries -Journey to Employment -August to November 2022	4-8
3.	Virtual Internship Program 2023- Salesforce 05 April 2023 to 30 May 2023	9-12
4.	Success event of Google supported virtual internship program and educator Development program organized by Smart Bridge in collaboration with AICTE on 30/11/22	13-15
5.	AI&DS and CME Collaborative quality initiatives Certificate for completion of PHP and MYSQL Training by Spoken tutorial project 2023	15
6.	Certificate for completion of Java Training by Spoken tutorial project 2023	16
7.	IBM Skills build in collaboration with Smartinternz 2023	17
8.	Certificate on completion of Digital Skills Readiness program in Collaborative effort with talent next and Wipro 2023	18
ECE Collaborative quality initiatives		
9.	One day Workshop on Personality development and Entrepreneurship in association with OTBI Osmania University on 7-07-2023	19-20
10.	IEEE Stanley for women student Branch on 23-06-23	21
11.	AICTE –SPICES sponsored student and faculty development programme on “Antenna Design using HFSS organized by Green Electronics club Dept. of ECE in association with ISF,IEEE on 16-12-2023 and 17-12-2023	21-22
12.	AICTE-SPICES Project Two-Day Technical Enrichment Program , Organized by Green Electronics Club Dept. of ECE In association with IEEE SB, WIE, IETE, NDLI Club & IIC on 2-11-2022 and 3-11-2022	23-25
13.	AICTE-SPICES Project 1-day workshop on “Intellectual Property Rights” on Organized by Green Electronics Club Dept. of ECE on 25-06-2022	26
IT Collaborative quality initiatives		
14.	A faculty development program was organized by BrainOVision Solutions, India Pvt. Ltd, AICTE and Ministry of Education in association with “Stanley College of Engineering & Technology for Women”, Hyderabad from 22th to 27th August, 2022 through virtual mode	27-28
15.	Intellectual Property Rights Awareness program under NIPAM-Govt. of India on 24-01-2023	29

PRINCIPAL

6. Governance, Leadership and Management

6.5.3 Institution has adopted the following for the Quality Assurance

1. Academic and administrative audit(AAA) and follow up action taken
2. Conferences, Seminars, Workshops on quality conducted
3. Collaborative quality initiatives with other institution(s)
4. Orientation programme on quality issues for teachers and students
5. Participation in NIRF and other recognized ranking like Shangai Ranking, QS ranking, Times Ranking etc
6. Any other quality audit recognized by state, national or international agencies

6.5.3_4 List of Collaborative quality initiatives with other institutions along with brochures and geo-tagged photos with caption and date

MOU Exchange Membership Certificate

ICT ACADEMY with the Students and the IIC team of Stanley

2.Salesforce Industries -Journey to Employment -August to November 2022

Course format

- Duration: 4 months
- Faculty facilitated sessions :
 - 1.5 hour lecture every week over Google Meet /Zoom /Class Room
 - Half an hour Office hours every week
 - 14-16 Lectures Total
 - Assignment Every week
 - 10-14 weeks of courseware
 - Hackathon to build an application at the end of the course
- Faculty - Salesforce Engineers
- Mentors for Hackathon project
- Trailblazer Ranger Badge
- Certificate at end of the course

Weekly Plan

Lecture (90 min)

Each topic has a lecture session. After lecture, an assignment is given to the students. (90 minutes)

Office Hours (30 min)

2 Days after each session students have the opportunity to get any doubts clarified during office hours (30 minutes)

Assignment submission (1 per week)

Students have to submit the assignments by end of the week for the topics covered during the week.

Topics Covered

Interpersonal topics:

- Goal Setting
- Productivity & Time Management
- G-Suite
- Effective Communication
- Interview Preparation
- Leveraging Social Media to build your personal brand
- Design thinking
- 1:1 Mentoring

Technical topics:

- HTML, CSS
- Git
- Python
- Django
- Basic Javascript
- Advance Javascript
- Testing

1-1 mentoring with Salesforce engineers

Students have the opportunity to not only gain industry-specific knowledge, but to also gain an inside look in the process of creating world-renowned products. You will love the personal connection!

Resume-worthy Ranger Badge

The Ranger Badge is the highest Trailblazer Rank, which certifies knowledge in Salesforce and other in-demand skills. Give your resume a competitive edge!

01/07/2022

Circular

Sub: Salesforce Industries – Journey to Employment – August to November 2022 -
Industry Institute Interaction Cell (IIC), Stanley and Institution Innovation Council (IIC),
Stanley – Reg.

Course Name:
Salesforce Industries – Journey to Employment

Delivery Partner:
Salesforce R & D Team - Engineers

Outcomes:

1. Students have the opportunity to not only gain industry-specific knowledge, but to also gain an inside look in the process of creating world-renowned products. You will love the personal connection.
2. The Ranger Badge is the highest Trailblazer Rank, which certifies knowledge in Salesforce and other in-demand skills. Give your resume a competitive edge!
3. Hackathon
4. Full stack project development
5. Connect to job opportunities with Salesforce and its associates

Course Format:

- **Faculty facilitated sessions :**
 - 1.5 hour lecture every week over Class Room (Every Thursday 2.30 pm to 4.30 pm)
 - Half an hour Office hours every week
 - 14-16 Lectures Total
 - Assignment Every week
 - 10-14 weeks of courseware
 - Hackathon to build an application at the end of the course
- **Faculty -** Salesforce Engineers & Industry Experts
- Mentors for Hackathon project from Salesforce Engineers & Industry Experts
- Trailblazer Ranger Badge
- Certificate at end of the course
- Duration: 4 months (50-60 Hours Program)

Topics Covered:

Technical topics:

- HTML, CSS
- Git
- Python
- Django
- Basic Javascript
- Advance Javascript
- Testing

Interpersonal topics:

- Goal Setting
- Productivity & Time Management

- G-Suite
- Effective Communication
- Interview Preparation
- Leveraging Social Media to build your personal brand
- Design thinking
- 1:1 Mentoring

Mode of Delivery of the training

- The Training will be delivered In-Class Training.
- Mentoring sessions shall be taken up by Salesforce R & D Team during program
- Students must complete assignments on time
- Few sessions will be planned in Salesforce office

Mandatory Requirements

- Students must be willing to take up a job.
- Students should register via a link shared on or before 5th July 2022.
- Students should carry Laptop

Assessment & Certification

- Students must clock a minimum of 85% attendance.
- A Course Completion Certification will be issued by salesforce

Who Can Apply?

- Students pursuing Graduation in Engineering 6th sem – BE CSE, BE IT, BE CME,

Note:

ABOUT THE COLLEGE

Stanley College of Engineering and Technology for Women – a temple of learning was established in the year 2008 on a sprawling 6-acre campus of historic Stanley College campus at Abids, Hyderabad. The college provides a serene and tranquil environment to the students, boosting their mental potential and preparing them in all aspects to face the global competition with a smile on the face and emerge victorious. Stanley College of Engineering and Technology for Women has been established with the Executive board of Methodist Church of India that has been gracious and instrumental in making the vision of an Engineering College on this campus a reality. It has been approved by AICTE, New Delhi, recognized by the Government of Telangana. The College is Accredited by NAAC with 'A' Grade & All eligible Under Graduate (UG) Courses by NBA. It has been sanctioned with six UG-Courses: B.E. in Computer Science Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering, Information Technology Computer Engineering and Artificial Intelligence and Data Science.

ABOUT DEPARTMENT OF ECE

The main thrust of ECE Department is to provide better quality education required by the present industry and train the faculty in new technologies periodically to equip themselves in the present global scenario. The Department of ECE offers M.E. (Embedded Systems) course since 2012, now with an intake of 30. This course aims to provide a comprehensive education on par with excellence in the area of Embedded Devices with well qualified professors with decades of experience in the field of teaching and industry. Under this PG Course, latest technologies like Microcontrollers, Digital Signal Processing, IOT, etc. are covered. This highly popular program trains students in broad areas of Microelectronics, Embedded Systems / SoC, Communication Engineering / Networking, Digital Signal Processing and Fiber Optics. With the continuous advancements and technological innovations, Electronics and Electronic Communication Engineering is under constant flux, finding applications in all human endeavor.

CONTENTS

16th December 2022

1. Introduction to Antennas
 - Antenna fundamentals
 - Types of Antennas and their Applications
 - Characterization of Performance parameters of Antennas
 - EM Simulation Tools
2. Hands-on Session on Design and Simulation using HFSS:
 - Basic Dipole Antenna
 - Antenna Arrays
 - Microstrip Antenna with Different Feeding Techniques

17th December 2022

1. Lecture Session
 - Topic: Broadband Monopole Whip Antennas for Long Distance Radio Applications
2. Hands-on Session using HFSS:
 - Antenna Design Optimization Techniques
 - Circularly Polarized Antennas
 - Microstrip transmission line design and simulation
 - Project based discussion (Research Journals)

REGISTRATION FEE DETAILS

Rs.50/- (Member of Professional Society: IETE/IEEE/ISOI)

Rs.100/- (Non-Members)

ABOUT THE COLLEGE

Stanley College of Engineering and Technology for Women - a temple of learning was established in the year 2005 as a sprawling 6-acre campus of modern Stanley College campus at Abids, Hyderabad. The college provides a serene and tranquil environment to the students, providing them mental, physical and preparing them in all aspects to face the global competition with a smile on the face and energy within. Stanley College of Engineering and Technology for Women has been established with the benevolent support of Methodist Church of India that has been providing and instrumental in making the vision of an Engineering College on this campus a reality. The College is affiliated to the prestigious Osmania University, Hyderabad. It has been approved by AICTE, New Delhi, recognized by the Government of Telangana. The College is Accredited by NAAC with 'A' Grade status. All eligible Under Graduate (UG) Courses by NBA. It has been associated with its Life Courses: B.E. in Computer Science Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering, Information Technology, Computer Engineering and Artificial Intelligence and Data Science as well as three PG Courses: M.Tech in ECE, M.Tech in Embedded Systems and M.Tech Degree in Business Administration.

OBJECTIVE OF THE Dept.

The main focus of ECE Department is to provide better quality education required by the present industry and meet the faculty in new technologies periodically to equip themselves in the present global scenario. It offers M.Tech - Embedded Systems department of ECE with an intake of 25. This course aims to provide a comprehensive education on par with standards in the area of Embedded Systems with well qualified professors with decades of experience in the field of teaching and industry. Under the 35 Course, latest technologies like microcontrollers, digital signal processing, AI, etc. are covered. This highly popular program trains students in broad areas of: Microelectronics, Embedded Systems, AI, Communication Engineering, Networking, Digital Signal Processing, Video Optics, Precision and Medical Electronics. With the continuous advancement and technological innovation, Electronics and Electronic Communication Engineering is under constant flux, finding applications in all human activities. The need of the hour is to keep abreast of the technological advancement, keeping up the developed countries. Our practice provides quality education and up to date information to the students, so that they find place in the fast changing profile of the industry. Besides strong academic input, the students are exposed to on-site projects and gain hands-on experience with the hardware and the software tools. Visits to industry and expert lectures from academia and industry add another dimension to the teaching learning experience. Novel teaching methods, coupled with intensive laboratory training are implemented to get the best out of everyone. Interactive sessions, conduct of seminars, workshops etc. are the added on-curricular activities developed by the Department in the making of an engineer beyond compare. The Department possesses a core group of well-trained, competent and highly motivated faculty and staff members who have established an excellent name of the best academic practices being followed in India and abroad.

ELIGIBILITY CRITERION

Participation in this workshop is open to the PG Research Scholars and undermembers of Green Electronics Club and also students of Science and Engineering streams.

EVENT DETAILS

1. Project Expo
2. ICM
3. Culinary Contest
4. Thesauri Hunt
5. Creative Hub
6. Essay Writing (Theme: Technology to Improve Rural India)
7. Poster Presentation (Theme: Smart Cities)

REGISTRATION FEE DETAILS

For Rs 50/-

EXPERT SPEAKER

Speaker: Smt. LAKSHMI, Scientist - 'F', DLRL

STUDENT COORDINATORS

1. Ms. [Vaishnavi Padala](#)
2. Ms. [T. Srinivas Lakshmi](#)
3. Ms. [G. Shobana](#)
4. Ms. [G. Srinivas](#)
5. Ms. [E. Divya](#)
6. Ms. [T. Shobana](#)

WORKSHOP DATE & VENUE

15th October 2022
 D Block Seminar Hall

Brochure

Address by Dr.Ramana Muirthy, Vice Principal
SCETW

Welcoming the Speaker by Mrs
. R.Ramya Shree

Project Expo

2. AICTE-SPICES Project 1-day workshop on “Intellectual Property Rights” on Organized by Green Electronics Club Dept. of ECE on 25-06-2022

What is Cloud?

"The cloud" refers to servers that are accessed over the Internet, and the software and databases that run on those servers. Cloud servers are located in data centers all over the world. By using cloud computing, users and companies do not have to manage physical servers themselves or run software applications on their own machines.

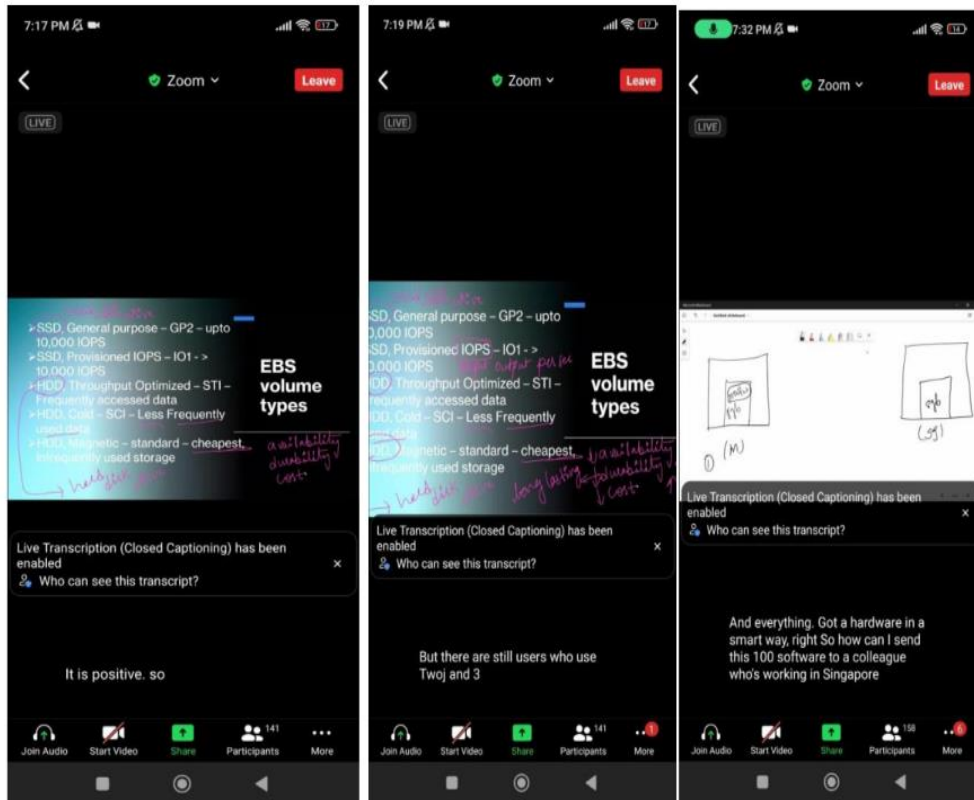

What is Cloud computing ?

Simply put, cloud computing is the delivery of computing services—including servers, storage, databases, networking, software, analytics, and intelligence—over the Internet ("the cloud") to offer faster innovation, flexible resources, and economies of scale. You typically pay only for cloud services you use, helping lower your operating costs, run your infrastructure more efficiently and scale as your business needs change.
