**Day- 1
13-05-2023(SATURDAY)**

First session of the course began with the inaugural of the 2 day course of “An overview course on Cloud & AWS from an industry Perspective”. The speaker of the program, Mr. Vikas, Technology Manager for carrier services Private Ltd., explained the importance of Cloud & AWS in Practical Scenario.

An overview of basic concepts of Cloud and cloud computing was introduced in the first session to help easily grasp the advanced concepts of AWS and services provided by it. Cloud computing is the delivery of computing services including servers, storage, databases, networking, software, analytics, and intelligence over the Internet (“the cloud”) to offer faster innovation, flexible resources, and economies of scale.
