INDUCTION DAY REPORT

The induction program was conducted from 1-5th November. On the first day of induction activities were planned accordingly. Before the beginning of the activities, students were divided based on the flower they chose from the given chits put at the entrance. After the division was done, respective incharge faculties conducted the following activities:

1. Find the difference.
2. Picture Puzzle
3. Narrate a story
4. Sudoku
5. Introducing us

Find the difference:

Find the difference is a type of puzzle where players must find a set number of differences between otherwise similar images. Students explained about the activity & they were divided into eight groups with two members in each group. Pictures were given, with a time limit to find the difference.

Picture Puzzle:

Picture puzzle we had 3 members in a group and within the stipulated time students solved the puzzles and evaluation was done.

Self Introduction:

Self introduction is a group based ice breaking activity which is meant for socialising, team work, collaboration and cooperation among students. The teachers categorised the students into several groups of 10 members and provided chart papers and stationery materials.

Narrating a story:

The students were divided into groups of 10 members. Many chits with verbs written on them were put in a box and passed around. Every member was asked to randomly pick one. Each group sat together to discuss the verbs they got to create a story with them. After taking around 10 minutes for discussion, each group presented their story. Every group was unique as repetition of the same set of verbs wasn't encouraged.
